Notes:

p - Data is preliminary.

.. - not available for a specific reference period.

[1] - Includes people who receive regular income benefits whether or not they participate in one of the three employment benefit programs, namely Skills Development Program, Job Creation Partnerships Program and Self-employment Program.

[2] - Excludes Family caregiver benefits for children (formerly named Parents of critically ill children benefits) and Family caregiver benefits for adults.

[3] - Starting December 3, 2017, beneficiaries have the option between standard and extended parental benefits. Includes adoption benefits.

March to September 2020

1. Reflect the number of individuals that obtained Employment Insurance benefits and exclude beneficiaries of the CERB.
2. The following rules dictated which benefits were administered, and ultimately whether they were counted in EIS:
   - If an individual became eligible for Employment Insurance regular or sickness benefits prior to March 15, 2020, they received EI benefits.
   - If an individual became eligible for Employment Insurance regular or sickness benefits on or after March 15, they received CERB benefits.
   - If an individual started a new Employment Insurance claim within the 52 weeks prior to March 15 and there were weeks payable remaining on that claim, they had the following options:
     - Automatically reactivate (renew) their existing claim at the existing benefit rate; or

October 2020 and onward

1. Employment Insurance Statistics for the October 2020 reference period and onward consist of individuals who obtained Employment Insurance benefits, and exclude beneficiaries of the Canada Recovery Benefits (Canada Recovery Benefit (CRB), Canada Recovery Caregiving Benefit (CRCB), and Canada Recovery Sickness Benefit (CRSB)). They also reflect the temporary (12-month) EI program parameter changes that were introduced alongside the Canada Recovery Benefits.

2. With the termination of the CERB on September 27, 2020, and the expansion of the EI program through temporary program parameter changes (insurable-hours credit, blanket minimum unemployment rate, minimum benefit rate, etc.), the potential population of EI beneficiaries has expanded effective October 2020. Individuals who were collecting the CERB as of September 26 and who were still not employed were likely to have transitioned to the EI program, conditional on meeting the EI program eligibility criteria. People who did not meet the EI benefits criteria may have transitioned to one of the Recovery Benefits, if eligible.

On March 8, 2024, estimates of special benefits have been corrected for the April 2019 to December 2023 period.

As of March 21, 2013 estimates are based on new methodology and concepts. For more information see following link to Statistics Canada, DAILY:
