Hybrid Electric Vehicle Registrations weighing 4,536 kilograms or less, by Type of Vehicle, Annual [1 2 3 4]
Newfoundland and Labrador
2017-2025

Vehicle Type	Fuel Type	Number of vehicles								
		2017	2018	2019	2020	2021	2022	2023	2024	2025
Total, vehicles weighing 4,536 kilograms or less [5 6]	Battery electric	31	36	50	85	154	367	782	1,229	1,595
	Hybrid electric	657	736	1,087	1,097	1,519	2,232	3,539	5,545	8,411
	Plug-in hybrid electric	83	82	94	118	179	315	523	881	1,273
Passenger cars, weighing 4,536 kilograms or less	Battery electric	25	30	43	71	109	195	306	360	351
	Hybrid electric	462	510	797	626	575	617	727	941	1,407
	Plug-in hybrid electric	81	77	79	91	110	140	155	165	160
Multi-purpose vehicles, weighing 4,536 kilograms or less [7]	Battery electric	4	4	5	12	42	163	429	743	1,029
	Hybrid electric	193	223	287	468	893	1,383	2,312	3,850	5,840
	Plug-in hybrid electric	2	4	14	26	67	167	354	702	1,100
Pickup trucks, weighing 4,536 kilograms or less [8]	Battery electric	1	1	1	1	1	6	37	107	178
	Hybrid electric	2	3	3	3	23	152	386	578	856
	Plug-in hybrid electric	0	0	0	0	0	0	1	0	0
Vans, weighing 4,536 kilograms or less [9]	Battery electric	1	1	1	1	1	3	10	19	37
	Hybrid electric	0	0	0	0	28	80	114	176	308
	Plug-in hybrid electric	0	1	1	1	2	8	13	14	13
Other vehicles, weighing 4,536 kilograms or less [10]	Battery electric	0	0	0	0	1	0	0	0	0
	Hybrid electric	0	0	0	0	0	0	0	0	0
	Plug-in hybrid electric	0	0	0	0	0	0	0	0	0

Footnotes:

[1] Starting with 2017 registration data, a new and improved method to assign vehicle types was used. As a result, comparisons to table 23-10-0067-01 is not recommended.
[2] This table excludes vehicles that were determined to have no Gross Vehicle Weight Rate (GVWR) and/or unknown vehicles types.
[3] This tables excludes trailers and off-road categories such as snowmobiles, golf carts, etcetera.
[4] Please note that 2025 is the final Vehicle registrations" release. To learn how the agency is adapting to continue delivering quality data that Canadians rely on, visit the following link: https://www.statcan.gc.ca/en/trust/delivering-trusted-data
[5] Weight refers to Gross Vehicle Weight Rating (GVWR) which is the maximum weight a vehicle is designed to carry. Manufacturers set the GVWR.
[6] Light-duty vehicles refer to vehicles with a GVWR less than 4,536 kilograms (0 - 10,000 pounds) and includes GVWR classes 1 and 2.
[7] Multi-purpose vehicles include sports utility vehicles (SUVs) and crossovers.

[8] Pickup truck counts can be obtained in two pickup truck categories: weighing less than 4,536 kg (GVWR classes 1 and 2), and in the category weighing between 4,536 kg and 11,793 kg (GVWR class 3).
[9] Vans include all minivans and cargo vans.
[10] Other vehicles include incomplete vehicles that require further manufacturing operations to become a completed vehicle, trucks and/or recreational vehicles.
